The aim of the session is to increase your understanding of the concept of continuous QI and for you to become more familiar with QI processes and the language of QI. It will be a chance to reflect & consider how QI may be applied in your own practice and we hope that you will feel inspired to initiate change and be more confident about how to do so.

Students on Tour 2024 has now finished and it has been a roaring success! The students completed 68 NHS Health checks across 2 areas and have been absolutely amazing, not only in their own learning but also for our learning as a system.

Knowing that this can be done within Primary Care and now seeing that there are ways we can do placements differently to better help students choose their career path and make a real difference to practices and PCNs in Derby and Derbyshire, this definitely won't be the last time you see Students On Tour!

THE DERBYSHIRE GENERAL PRACTICE LONG SERVICE AWARD SCHEME

The first cohort for the **Derbyshire General Practice Long Service Award** has now closed.

The Long Service Award recognises and celebrates the incredible commitment to those who have worked within the NHS for 25 years and onwards.

We've received over 70 applications from colleagues in general practice across Derby and Derbyshire. One particular application from a Derbyshire practice nominated their staff who combined have 166 years service within the NHS!!

We are incredibly grateful for all the applications, further information will be released very soon.
